# INDOOR/OUTDOOR MULTI-PURPOSE INSECT SPRAY

**Formulation:** Microemulsified Permethrin

**Insects Controlled:**

Indoors: Houseflies, gnats, cockroaches, waterbugs, silverfish, scorpions, spiders and others.

Outdoors: Japanese beetles, whiteflies, aphids, thrips, red spider mites, ants and others listed on label.

Dogs: Fleas and ticks.

**Application:** Shake well before using. Hold container upright and spray from a distance of 12 to 15 inches. Spray until surface is just damp, but not to point of wetness or run-off.
